ABOUT MAXIT

Engineering the Future of Infrastructure

MaxIT is a technology and engineering solutions company focused on delivering reliable, efficient and sustainable solutions for homes, businesses, industries and

institutions.

We bridge the gap between complex technological capabilities and practical implementation. From solar grid installations to fully automated smart environments, our multi-disciplinary approach ensures every project is executed to the highest engineering standards.

10+

YEARS OF EXPERIENCE

250+

PROJECTS COMPLETED

100+

CLIENTS SERVED

20+

TECHNICAL PROFESSIONALS

OUR SOLUTIONS

Comprehensive Engineering Capabilities

CORE SERVICE

Comprehensive Solar Solutions

Leading the transition to sustainable energy with end-to-end solar engineering, ensuring maximum efficiency and reliability for industrial and commercial sectors.

Key Solar Expertise:

Solar Installation

End-to-end design & setup

Roof Top Solar

Commercial optimization

Complete Solar Setup

Turnkey off-grid & on-grid

Net Metering

Grid synchronization

Solar Lift Integration

Heavy industrial power

Technology & Infrastructure Services

Computer & Accessories

Enterprise-grade IT hardware supply and comprehensive computer accessories.

Data Logger & IoT R&D

Custom research, development, and deployment of intelligent IoT devices and data logging systems.

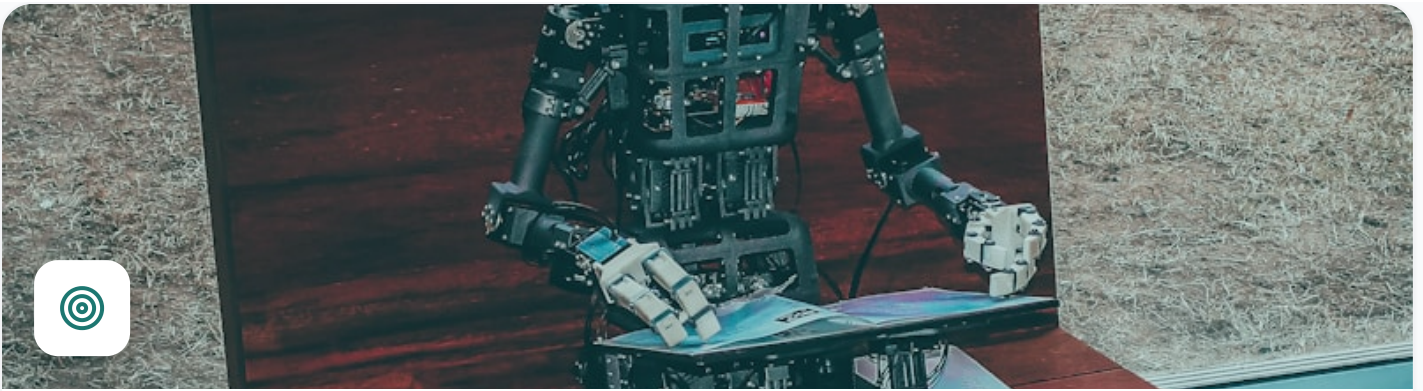

Server & Security Systems

Robust server infrastructure setup and advanced cybersecurity implementations.

CCTV Surveillance

High-definition, continuous monitoring camera systems for total premises security.

AI-Based Camera Models

Next-generation smart cameras with artificial intelligence for automated threat detection and analytics.

One Partner. Multiple Engineering Capabilities.

Energy

Automation

Agriculture

Security

Networking

Infrastructure

From initial consultation and system design to installation, commissioning and after-sales support, MaxIT provides end-to-end technology and engineering solutions tailored to each project.

Why Choose MaxIT?

Delivering proven value through technical excellence and integrated approaches.

Integrated Solutions

Multiple technology and engineering capabilities under one roof.

Customized Approach

Solutions designed according to each client's technical and operational requirements.

Quality Equipment

Reliable equipment and technologies selected for performance and long-term use.

Professional Installation

Experienced technical teams for installation, configuration and commissioning.

End-to-End Support

Support from consultation through implementation and maintenance.

Sustainable Solutions

Technology focused on efficiency, resource optimization and long-term value.

FROM IDEA TO IMPLEMENTATION

How We Work

01

Consultation

We understand your requirements and objectives.

02

Site Assessment

Our team evaluates the site, infrastructure and technical requirements.

03

Solution Design

We develop a suitable technical solution tailored to your exact needs.

04

Proposal

We provide specifications, scope and a transparent commercial proposal.

05

Installation & Commissioning

Our team implements, tests and commissions the system.

06

Support

We provide ongoing technical support and proactive maintenance.

PROVEN SUCCESS

Our Recent Projects

Smart Home & Solar

Eco-Smart Villa Automation

📍 Location Verified

Complete home automation with integrated solar power management.

[View Project →](#)

Agro Tech

Automated Hydroponic Greenhouse

📍 Location Verified

High-tech greenhouse with automated climate and irrigation control.

[View Project →](#)

Solar Energy

Urban Solar Roof Integration

 Location Verified

Sleek, highly efficient solar roof installation for a modern home.

[View Project →](#)

Solar Energy

Commercial Solar Farm

 Location Verified

Large-scale solar energy plant for a manufacturing facility.

Meet the Team Behind MaxIT

Our engineering and management leaders driving innovation.

CHIEF EXECUTIVE OFFICER

Engr. Zahangir Alam

At Max IT Solution LTD., we believe that technology should serve people, empower communities, and create lasting impact. Since the beginning of our journey, we have been driven by a simple yet powerful mission: to provide reliable, innovative, and sustainable solutions that address real-world challenges faced by businesses and communities alike. Whether it is supporting business operations through our IT services or contributing to rural development through renewable energy and agro-based technologies, we remain committed to delivering excellence in everything we do. As we continue to grow, we stay grounded in our core values of professionalism, integrity, and service. I am proud of the work we have accomplished so far, and I am even more excited about the future we are building together.

PROJECT DIRECTOR

Rupali

Experienced project director ensuring successful execution and delivery of our initiatives.

SOFTWARE ENGINEER

Sarwar Jahan

Expert software engineer developing robust and scalable digital solutions.

SOFTWARE ENGINEER

Rashedul Islam

BSc in Computer Science and Engineering. Dedicated to building scalable and robust software solutions.

ADVISER

Tauhidur Rahman Rony

Strategic adviser providing expert guidance on business development and operations.

SENIOR EXECUTIVE

Priyanka Roy

Dedicated senior executive managing key administrative and operational functions.

ASSISTANT ENGINEER

Md. Emon Ali

Skilled assistant engineer supporting our technical projects and implementations.

MAINTAINCE ENGINEER

MD .SHAHID AFRIDI

Skilled Maintaince Engineer
supporting our technical projects
and implementations.

ELECTRICIAN

**Md.Shaifiquel Islam
Moznu**

Expert electrician ensuring safe
and efficient electrical installations
and maintenance.

CIVIL ENGINEER

MD Rakib Hasan

A highly motivated and versatile individual with a strong academic foundation in civil engineering.

PROJECT & OPERATIONS MANAGER

Md. Ruhul Amin Siddiqui

NETWORK ENGINEER

Omer Faruk

MANAGEMENT TRAINEE OFFICER

MD JAHID HASSAN

Managed daily production and equipment maintenance, ensured food safety, optimized workflows, and led team performance.

SITE ENGINEER

Md. Asaduzzaman

To work in an institution where my skills and intelligence can be delivered independently to achieve self and institution-development, thus the welfare of mankind is ensured.
