About Max iT

Engineering the Future of Infrastructure

Max iT is a technology and engineering solutions company focused on delivering reliable, efficient and sustainable solutions for homes, businesses, industries and

institutions.

We bridge the gap between complex technological capabilities and practical implementation. From solar grid installations to fully automated smart environments, our multi-disciplinary approach ensures every project is executed to the highest engineering standards.

10+
YEARS OF EXPERIENCE

250+
PROJECTS COMPLETED

100+
CLIENTS SERVED

20+
TECHNICAL PROFESSIONALS

OUR SOLUTIONS

Comprehensive Engineering Capabilities

Solar & Renewable Energy

Leading the transition to sustainable energy with end-to-end solar engineering, ensuring maximum efficiency and reliability for industrial, commercial, and residential sectors.

Key Solar Expertise:

Solar Installation
End-to-end design and setup.

Roof Top Solar
Optimizing commercial rooftops.

Complete Solar Setup
Turnkey off-grid & on-grid.

Net Metering
Grid synchronization & setup.

Solar Lift Integration
Powering heavy industrial lifts.

Maintenance & Support
24/7 technical assistance.

Infrastructure

From initial consultation and system design to installation, commissioning and after-sales support, Max iT provides end-to-end technology and engineering solutions tailored to each project.

Why Choose Max iT?

Delivering proven value through technical excellence and integrated approaches.

Integrated Solutions

Multiple technology and engineering capabilities under one roof.

Customized Approach

Solutions designed according to each client's technical and operational requirements.

Quality Equipment

Reliable equipment and technologies selected for performance and long-term use.

Professional Installation

Experienced technical teams for installation, configuration and commissioning.

End-to-End Support

Support from consultation through implementation and maintenance.

Sustainable Solutions

Technology focused on efficiency, resource optimization and long-term value.

FROM IDEA TO IMPLEMENTATION

How We Work

1 **Consultation**

01

We understand your requirements and objectives.

2 **Site Assessment**

02

Our team evaluates the site, infrastructure and technical requirements.

3

Solution Design

03

We develop a suitable technical solution tailored to your exact needs.

4

Proposal

04

We provide specifications, scope and a transparent commercial proposal.

5

Installation & Commissioning

05

Our team implements, tests and commissions the system.

6

Support

06

We provide ongoing technical support and proactive maintenance.

PROVEN SUCCESS

Our Recent Projects

Automated Hydroponic Greenhouse

Location Verified

High-tech greenhouse with automated climate and irrigation control.

View Project →

Urban Solar Roof Integration

Location Verified

Sleek, highly efficient solar roof installation for a modern home.

View Project →

Commercial Solar Farm

Location Verified

Large-scale solar energy plant for a manufacturing facility.

View Project →

Smart Office Automation y

Location Verified

Intelligent climate and lighting control for corporate offices.

View Project →

Solutions Across Industries

Delivering scalable engineering solutions for diverse sector requirements.

Max iT Solution Ltd.

Corporate Organogram and Profile Layout with Global Supply Chain Network.

MESSAGE FROM CEO

Engr. Zahangir Alam (Sobuj)

"An experienced engineer with a postgraduate degree in Electrical and Electronic Engineering, leading the overall operations, technological innovation, and commercial growth of the institution.

Zahangir Alam

1. Board of Directors

Subnom Mostari

Chairperson Of The Board

Chairman

Oversees the strategic goals, long-term investment plans, and corporate governance of Max iT Solution Ltd. as the head of the board of directors. She provides top-level guardianship to ensure the institution's financial discipline, legal compliance, and policy transparency.

Sarwar Jahan

Director - Automation & Iot

Industrial Automation & Smart Telemetry

Sarwar Jahan specializes in advanced IoT solutions and industrial automation to drive operational efficiency. He plays a key role in assisting and managing industrial sensor integration, remote data acquisition, cloud monitoring, and smart control architecture.

Nahid Hossain

Director It

Director Of Information And Technology

Oversees the organization's technological infrastructure, network security, and day-to-day IT operations. He leads the development and implementation of innovative digital strategies, ensuring robust data management and aligning technological solutions with the company's long-term operational goals to drive efficiency.

2. Advisory Council

Md. Ruhul Amin Siddiqui

Senior Advisor

Projects & Engineering Solutions

Provides technical and policy guidance to the Board of Directors and top executives regarding long-term institutional expansion, national and international partnerships, and mega projects.

3. Core Engineering & R&D Wing

MD JAHID HASSAN

Product Design Engineer (Mechanical)

Research, Development & Product Architecture

Ensures 3D CAD modeling of solar and electronics equipment, as well as the structural stability and thermal dissipation design of metal enclosures and control panel cabinets.

Md. Asaduzzaman

Senior Electrical Maintenance & O&M Engineer

Power Systems, Service & Industrial O&M

Ensures preventive and breakdown maintenance, field troubleshooting, and uninterrupted power runtime for industrial VFDs, PLC control panels, and solar inverters.

Md.Rubel

Surveillance, Network & Grounding Systems Engineer

Infrastructure, Elv & Safety Systems

Designs and implements IP CCTV camera surveillance, Local Area Network (LAN), rolling communication tower connectivity, and dedicated grounding/earthing and Lightning Protection Systems (LPS) for solar systems.

Rashedul Islam

Digital Infrastructure & Media Engineer

Digital Infrastructure & Media

Leads the technical development and maintenance of the website while managing the company's social media, digital content, and online branding to drive its global digital presence.

Md. Emon Ali

Project Site Engineer / Field Trainee

Field Operations & Project Documentation

Assists the engineering team in the project execution directory, site measurements, technical drafting, and drawing verification.

MD. SHAHID AFRIDI

Electrical Maintenance Engineer

Supporting Our Technical Projects And Implementations.

Skilled Maintaince Engineer supporting our technical projects and implementations.

Omer Faruk

Network Engineer

Network Infrastructures

Skilled professional dedicated to designing, implementing, and maintaining secure and high-performing network infrastructures.

Julkar Nain

Structural Design Engineer

Solar & Steel

Innovative professional specializing in the analysis, planning, and design of safe and sustainable structural frameworks.

Md. Rakib Hossen

Civil Engineer

A highly motivated and versatile individual with a strong academic foundation in Civil Engineering

4. Technical Field Staff

Touhid Masafi

Electrical Site Engineer

Installation, Maintenance & Operations:

Dedicated Electrical Site Engineer with a strong track record of translating technical blueprints into high-quality physical infrastructure.

Md. Shaifiqul Islam Moznu

Electrician

Electrical Installations And Maintenance.

Expert electrician ensuring safe and efficient electrical installations and maintenance.

5. Global Supply Chain & Procurement Division

Fahad Hossain Shovon

Lead Global Sourcing & Supplier Quality

China Hub

Directly inspects Tier-1 solar cell, lithium battery module, and inverter manufacturing plants, oversees Factory Acceptance Tests (FAT), and secures wholesale partnerships.

Rana Sheikh

Senior Specialist - Global Procurement & Technology Partnerships

Germany, Europe & Global Hub

Coordinates the sourcing of European standard automation sensors, VFD drive controllers, and power protection equipment, alongside managing strategic agreements with Original Equipment Manufacturers (OEMs).

Titu

Manager - Local Supply Chain, Customs & Site Logistics (Bangladesh)

Dhaka Head Office, Sea Port / Airport, And Site Warehouse

Ensures customs clearance of international shipments, port coordination, local electrical accessories collection, and the timely delivery of materials to various mega project sites.

6. Corporate, Finance, HR & Tender Wing

Amjad Hossen

Manager - Finance & Corporate Accounts

Accounting, Billing & Tax Compliance Services

Handles invoicing, billing, banking, VAT-tax compliance, and financial accounting.

Tauhidur Rahman Rony

Executive – Hr, Admin & Compliance

Office Administration, Institutional Policy, Hr Coordination, And Legal Documentation.

Manages office administration, corporate policy, human resources coordination, and legal documents.

Hanif Sikder

Executive – Tenders & Corporate Affairs

Tender Documentation, Rfp Processing & Client Relations

Oversees government and private mega tender documentation, RFP processing, and client communication.

7. Facilities & Logistics Support

Z

Zahid

Office Assistant & Logistics Support

Office Maintenance, Guest Hospitality, Banking Logistics & Courier Management.

Responsible for office cleaning and environmental maintenance, guest hospitality, banking/urgent document delivery, and maintaining all incoming/outgoing parcel and courier registers.

Md. Delower Hoss

Executive Driver & Fleet Assistant

Fleet Management, Executive Travel & Transport Logistics, Vehicle Compliance & Fuel Log Maintenance.

Operates company executive vehicles, transports officials for site visits and urgent spare parts, and maintains vehicle fitness, route permits, and fuel logbooks.
